Not using anymore, here's a description from productwiki.:

"The Tascam US-122L is the follow-up to the popular US-122; it is a portable digital audio interface for connecting micropphones, guitars, MIDI devices and other instruments to your Mac or PC. It accepts two channels of analog input through either an XLR mic input with phantom power or an analog 1/4" line input switchable to high impedance for guitars.;
