+27678947095 Abortion Pills Termination pills medical abortion early pregnancy abortion non-surgical abortion pills Medical and surgical abortion are both very good depending on your circumstances. Medical is very cheap and can be done in the comfort of your home safely. Surgical is done only at a clinic and it is very expensive and it may involve appointments and waiting.

So you choose what you want depending on where you are. If you are in a rural area or you are short of money go medical termination where a pill is used. It is quick and safe and you.

A medication abortion is often referred to as the "abortion pill." In fact, it's actually 2 pills taken as directed by a trained provider. The first pill is taken and you wait. The next one is taken the same day (at the earliest) but no later than 72 hours - at home.

Not everyone is eligible to have a medication abortion. You must be within the first 12 weeks LMP to qualify. call us on 0678947095

WHY DO PEOPLE CHOOSE AN AT HOME ABORTION WITH THE ABORTION PILL? Bani Hajer Which kind of abortion you choose depends on what makes you most comfortable. With the abortion pill, many people like the idea that you don't need to have a procedure in a doctor's office. You can choose where to have your medication abortion. You could have it at home or in another comfortable place that you choose. You can decide if you want to be alone or with someone during your abortion. Since a medication abortion is similar to a miscarriage, many people feel like it's more "natural" and less invasive. Bani Hajer
