### Ethanol Burner Round & Stones - Thin Base, Silver

Get all the atmosphere of a crackling fire without needing to knock part of your wall out with a bio-ethanol fireplace. Bringing the ambience of a fire to even the smallest of spaces, the bio-ethanol fireplace is the perfect addition to any home. A clear glass design and table-top spot allows you to watch the flickering flames from any angle, and you can put it anywhere in the room. The bio-ethanol fuel gives off no smoke, odor™s or ash and requires no electrical or gas connection, meaning you get all of the beauty of a fireplace without the messy clean-up or smoky-smelling house. Its relatively small size also makes it easy to move from one place to another.

If you are looking for an environmentally-friendly way to add ambiance to your home, bio ethanol fireplaces are really the way to go. Replacing your wood burning ways with a biofuel fireplace is an easy way to save your carbon footprint.
