A little smaller, lighter and with lower fuel consumption, the 1050 Adventure stands proudly alongside its larger siblings. It is a supremely competent and well equipped motorcycle at an attractive price. Traction control with different modes and ABS come as standard. The engine is built with the same state-of-the art technology as the 1190 engine and even though the engine is a little smaller, it delivers nearly the same power and torque up to 95 hp (70 kW). In addition it is A2 license compatible.

This is the Demo that we have and it only has 2933km on the.
