Pioneer CDJ-350 and DDJ-2000 Performance Multi Player (8000 R)

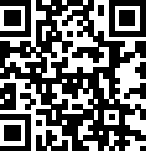

Location **Gauteng, Centurion**

https://www.freeadsz.co.za/x-109683-z

The CDJ-350 is a quality entry-level DJ deck that will play all professional and popular formats on CD or USB, in line with the professional CDJ-2000. And it really comes to life when you connect with your computer. Its USB connection allows for Plug & Play control of compatible DJ software, plus MIDI control for any music software. Also, you can use your CDJ-350 as an audio interface. With the deck comes rekordboxâ„¢, our own music management software that analyses the BPM and beat position of songs in your library. When you have finished preparing, you can transfer your songs and playlists to a USB device so you can select them by album, artist or genre on your CDJ-350. An industry first feature, DJs can create and edit playlists right on the player.
