Location **Gauteng, Moot**

This is one of only a very few legal imports in the country. It is also a UK spec car, meaning everything on the car is in English, not Japanese like all the other MR2s in SA. This is also a Revision 3 car, one of a very few in SA. In fact, the only UK spec rev 3 legally registered in SA that I know of. The car is complete as the day it left the factory. Ive added the wheels and small extras, but still have all the original components like the wheels and so on. The car has 140 000 true kms and has only been worked on by Toyota. It is a 2L normally aspirated car and the motor has not been messed around with. You can get in this car any day and drive anywhere. This car is a collectors item. The car has never had accident damage. Pls no joy rides and only interested people contact me.
