Good day ive bought this epic card a few months back and the performance is insane. But im going to upgrade soon so sadly i have to let it go, its one of the fastest GTX 970 cards made and ive played all my games on max settings without any lag at all 70-100 fps. Specs: 4GB ddr5, 256bit, Dx 11, 12 support, 1664 cudacores, GPU clock 1177MHZ, Memory data rate 7010 MHZ, Bandwith 224.32 GBs. Its a beast of a card and its in perfect workong condition, i have all the packeging and invoice for the card. It still has a 3 year warranty left at evetech. Im not open to trades like i said im upgrding soon. Whatsapp or email me for pictures, thanks. Kind regards
