Anti-drip value prevents excess dripping

The integrated anti-drip valve makes messy clean-ups arising from excess dripping a thing of the past. The valve prevents coffee from dripping down to the warmer plate when the carafe is removed, keeping the coffee maker clean and hygienic.

Parlemo Series coffee maker and bread toaster to compliment your kitchen

We are thinking of people who are looking for a basic set of different breakfast products which could fit into their kitchen and which offer a consistent design in between different product areas
