The CDJ-2000 is a quality DJ deck that will play all professional and popular formats on CD or USB, in line with the professional CDJ-2000. And it really comes to life when you connect with your computer. Its USB connection allows for Plug & Play control of compatible DJ software, plus MIDI control for any music software. Also, you can use your CDJ-2000 as an audio interface. With the deck comes rekordboxâ, ¢, our own music management software that analyses the BPM and beat position of songs in your library. When you have finished preparing, you can transfer your songs and playlists to a USB device so you can select them by album, artist or genre on your CDJ-2000. An industry first feature, DJs can create and edit playlists right on the.
