Manufactured in Germany, these exceptionally robust machines produce outstanding performance and reliability, resulting in them now being one of the most highly sought after by enthusiasts.

This is a classic one made by Singer in 1964 when high quality was a priority in the world. Pure raw materials were used to create beautiful and solid things at that time.

This Singer 411G is a very user friendly sewing machine. It is the most desirable machine for its high versatility. The strong metal, gear driven mechanism will allow you to do almost any sewing project doing a very nice straight and zigzag lock stitch.

This machine is being sold with the cabinet, which has 4 drawers, where you can put all your sewing equipment in. The sewing machine folds down into the cabinet, so does not take up much space, see pictures.

GREAT for general sewing, alteration shop, general upholstery, boat covers, chairs and couch recovering !!! In excellent working condition

Please whatsapp or email me from 8am to 5pm week days and phone calls welcome after 5pm and.
