8 Celsius degree

In heating operation, the present temperature of the air conditioner can be as low as 8 Celsius degree and prevents household things freezing when the house is unoccupied for a long time in severe cold weather.

Low ambient cooling

With low ambient kit, the outdoor fan speed can be changed according to the condenser temperature and it will run smoothly under the temperature as low as -15 Celsius degree

Review

This product delivers a tradition of quality appliances that are clever, easy to use yet stylish. Made for life at a reasonable price!
