Optoma BI-EXTBG03 Wireless VGA Dongle-Works with Any VGA Port- Supports wireless presentation applications on Smart Phones and Tablets including iPad and iPhones, Retail Box , 1 year warranty

Product Overview

The Optoma BI-EXTBG03 Wireless VGA Dongle-Works with Any VGA Port deliver the benefits of a seamless wireless connectivity with a whole new level of convenience and portability packed into a palm-sized device. No more swapping cables between laptops when a presenter hands the stage over to the next person.

This unit is compatible with tablets, smartphones, netbooks or laptops and will also support use with the WiFi dock for iPad. Instantly download and install the powerful software to your device to get connected. Its intuitive interface is simple to operate; just click play to start projecting your presentation. Since this Optoma dongle features advanced WEP 64/128-bit wireless security protection, the WPS-3 ensures that your information is always private. This dongle is suitable to deliver presentations anywhere you can connect to a VGA monitor or projector.

The Optoma BI-EXTBG03 Wireless VGA Dongle also allows you to do wireless presentations directly from your mobile devices. You can send wireless information directly to compatible receivers such as Wi-Fi projectors, presentation gateway devices (i.e. wePresent, WiGA, WPS), or MirrorOp enabled
