Brand New
 Defy DDW172 Diswasher

More powerful, faster and durable than standard motors, the variable speed circulation DC motor offers optimum washing performance at different water pressures for both durable and delicate kitchenware using only necessary amounts of water at reduced noise level.

To determine the appropriate wash cycle needed, dirt sensors automatically govern the cleanliness of the dishes first. Practical and economical, the auto programme uses only minimum required amounts of water and electricity providing convenience and saving costs.

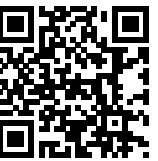

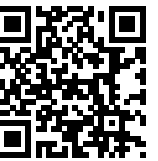

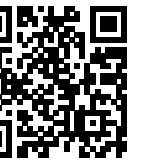

The 15 place setting dishwasher provides extra capacity for large families saving detergent, water and energy compared to a standard 12 place setting dishwasher.
