The products listed below are individual components; why not check out our fully functional Solar Water Heating Kits

Types of Solar Geysers

Solar geysers can be divided into two primary types:

Direct systems that pump water into solar panels, which is then heated and stored in the geyser. They can use either solar panels or evacuated tubes. for more information call litecom group of companies. 012 813 6033 / 084 768 7862 ,visit our website @ litecomgroupofcompanies.webs
