Logitech G29 Driving Force Racing Wheel for PC , Sony Playstation 3 and 4 - Dual-Motor Force Feedback, 900-degree Lock-to-Lock Wheel Rotation , Solid steel ball bearings + Stainless steel paddle shifters and pedals, Helical gears with anti-backlash, Responsive floor pedal unit - USB

Product Overview

The Logitech G29 Driving Force Racing Wheel for PS3 and PS4 brings you even closer to the action on the tarmac with Dual-Motor force feedback, helical gearing and easy-access game controls. All your controls are where you can reach them. The D-Pad, buttons and paddle shifters are incorporated into the racing wheel. LED indicator lights positioned just above the centre of the wheel tell you exactly when to up- or down-shift. You maintain maximum acceleration without taking your eyes off the track. A 24-point selection dial and the +/- buttons on the front of the wheel let you further fine-tune your driving preferences.

Feel your tyres on every turn and type of terrain, sense under- or over-steer drifting and more. Powerful dual-motor force feedback realistically simulates force effects so you can respond with precision. The Logitech G29 Driving Force Racing Wheel handles the stress of racing action and is built for long-lasting reliability. G29 has solid steel ball bearings in the wheel shaft and stainless steel paddle shifters and

pedals. The race wheel is covered in high-quality, hand-stitched leather, giving it the look and feel of a high-end performance racing wheel and built to be more durable than any other.

Get the most out of your racing games with the Logitech G29 Driving Force. The Dual-Motor Force Feedback lets you feel every turn of the road and rattle from the most treacherous racetracks with the Logitech G29 Driving Force.

• Solid Steel ball bearings in the wheel shaft, hand-stitched leather race wheel and stainless steel pedals give the G29 Driving Force Racing Wheel a construction quality that's second to none.

• A whisper smooth steering action is provided by helical gears modelled on gearing found in automobiles for a smoother steering action.

• All the buttons of a standard Playstation controller are found on the G29 Driving Force, with a D-Pad, buttons and paddles all built in to the steering wheel.
