GET YOUR SWIMMING POOL SOLAR PANELS TODAY
We do installation's contact us for a quote

Solar Pool Heating System
Solar pool heating systems are installed in both new and existing pools. Our solar panels can be mounted on the roof. Using the pool pump, water is circulated through hundreds of specially designed channels in the solar panels. Pool water is heated in the solar panels and returned to the pool through your existing plumbing.

Benefits of Solar Pool Heating
Want to go swimming but your pool is too cold? The weather in South Africa may be perfect but you still need to rely on a heater if you want to enjoy your pool in all but the hottest summer day's. Enjoy warm pool water. Solar pool heating lets you maintain warm water temperatures by harnessing free energy from the sun. Solar heating is cost efficient, easy to maintain and warms your pool without the high cost of electricity. With a solar pool heated pool, you can enjoy your pool for a longer time each year. That can double the expected swimming time with a non-heated pool.

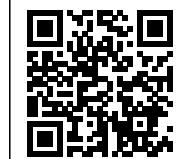

Gauteng, Midrand
