The Mobilift MH9C is ideally suited for use on rough African mine sites due to its robust design. Because it is refurbished, it is also ideal for a yard crane to assist in everyday heavy lifting and carrying of items in your yard. No outriggers are required on this crane which adds to the ease of operation, making this crane ideal for maximising onsite turnaround time. It has a lifting capacity of 9 tonnes with a maximum hook height of 11.5 metres, therefore ensuring fast and efficient work is executed.
