X-Bytes Repair Centre is fast and reliable. The team cater for professional DJ's and amateurs with broken Music equipment.
 The repair centre has diagnostic testing equipment to diagnose the cause of the fault so the technicians can repair it quickly and effectively. They have access to high quality parts to carry out any repairs that you may require.

Some of the Music equipment repairs that the team offer include:

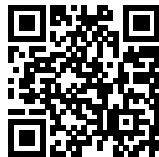

- Amplifier repairs
- CD player repairs
- Digital vinyl system repairs
- Dynamic processor repairs
- Effect unit repairs
- Karaoke repairs
- DJ Lighting repairs
- Mixer repairs
- Smoke machine repairs
- Speaker repairs
- Turntable repairs

These are just some of the common equipment that the fully trained engineers repair on a regular basis.

The team can diagnose and repair a variety of different faults that can happen with music equipment. These can include things like a loose connection, a component that has been dropped or broken, poor quality components, loose internal connections, and even replacing components for missing or faulty parts.
