LG 25UM58-P 25 inch Ultra-Wide IPS LED Monitor, 21:9 HD Format, 2560 x 1080, 5ms Response Time GTG, 1,000,000:1 Mega Contrast Ratio, 250cd/m<sup>2</sup> Brightness, 2 X HDMI - Black, Retail Box , 2 year warranty

## Product Overview

The LG 25UM58-P 25" Ultra Wide IPS Monitor with a 21:9 aspect ratio has the screen real estate to multitask with ease. With the built-in Screen Split 2.0 feature users can easily customize the screen using 14 different screen configurations, including picture-in-picture and picture-by-picture, to suit the needs of nearly any task. Configuring the characteristics of the display has also been greatly simplified thanks to intuitive on-screen controls including the ability to modify aspects such as brightness, picture mode pre-sets, Screen Split 2.0, and much more.

Setup and configuration of the LG 25UM58-P monitor is simple as it comes equipped with two HDMI ports. Once configured, users benefit from an Ultra Wide 2560 x 1080 resolution accompanied by a 5 ms GTG response time, which helps to eliminate ghosting in video and games. This IPS display even supports 178 ° horizontal and vertical viewing angles allowing users to view the display from nearly any angle with little to no distortion.

The display is designed to satisfy the needs of a variety of users from business professionals to gamers. With up to 99% sRGB color gamut, the LG 25UM58-P monitor offers enhanced color accuracy ensuring what you see on the screen is true to life. The Ultra Wide 21:9 aspect ratio is perfect for watching movies, browsing the web, and even playing games. The pixel Full HD resolution with 5ms response time is a game-changer. Simply put, from any viewing angle, everything looks more crisp and detailed in Full HD. For the gamers, LG has incorporated three gaming modes, two first-person shooter and one RTS pre-set, as well as dynamic action sync to provide a more immersive gaming experience.
