Motorhome Fiat Ducato Pacer 2013

This is a motorhome for the connoisseur and in brand new condition. Call it a bespoke motorhome. It has travelled 22,212 km and is unblemished in-and-outside. It has every luxury that you could wish for. It has an island bed in the back and more cupboard and hanging space that even a discerning lady could want. It has a beautiful and immaculately appointed bathroom with washbasin, shower and separate free standing Thetford toilet with ample LED lighting and many mirrors.

It has a kitchen that has everything anybody could wish for including a LG microwave oven, a big Waeco fridge/freezer the size of which can be seen in the attached photos, a Dometic built-in dish washer and a three plate gas stove. It has its own dinner service in a special compartment.

The owner has personalized the interior with colour coded materials which is of the very best quality with no expense spared. It sleeps 2 adults and has been appointed for a couple used to the finer things. The interior has LED lights placed in all the strategic places to create and suite your own mood.

It has a Dometic roof mounted air conditioner that allows you to forget about heat or cold. You create you own ambient temperature. Apart from the roof mounted air conditioner there is a separate air conditioner in the cab.

To make outside living a pleasure it has a Fiamma 45S crank-out awning which is 4.5 metres long with LED strip lighting underneath the awning for the evenings. It has a side panel that may be attached in the event of wind/rain/sun being worrisome. There are many extra plug points in-an-outside.

An Alden automatic satellite tracking system has been fitted on the roof with a flat screen TV inside.

It has loads of packing space in-and-outside that is easily accessible. Apart from the engine battery it

has two 102 a/h batteries to look after all the electronics inside the motorhome. There are two no 9 gas bottles in the back for the kitchen and there are hood type electricity sockets in the kitchen. There is a 24 hour Perkins battery charger fitted which charges the batteries when connected to power. The motorhome is fitted with a 2.0 litre diesel Fiat engine motor with a 1600 cc manual gearbox. You can comfortably at 120 km p/h. The diesel usage varies between 8.5 - 10.5 km/l depending on the speed you travel at. Additional gas shock had been fitted at the back. There is a rear view camera and all the wheels have wireless pressure monitor that can be checked in the cab whilst driving. Special stabilizers had also been fitted at the back.

The motorhome had a Sansui Natural Acoustic in car media player with blue tooth, USB, CD, etc. With single wheels on the back axle you pay the same fee at the toll gates as a car. You may also pull a car or trailer and still pay the same as a car with a trailer/caravan.

Motorhome Fiat Ducato Pacer

When you have a vehicle like this you have a home from home that affords you total independency.
The motorhome has always had covered parking and a special nose protection covering to protect the interior from the sun. This can clearly be seen on one of the attached.
