Product Overview

The Intellinet Pro Series Network Dome Camera is designed for security surveillance applications and comes fully equipped with state-of-the-art features that set it apart from other network cameras on the market today.

Vandal-Proof Dome Housing

Not only is the housing small and discreet, it can also take a beating. Thanks to heavy-duty aluminium and the use of tamper-proof screws, the Network Dome Camera is well-protected.

Excellent Video Quality

The INTELLINET NETWORK SOLUTIONS Pro Series Network Dome Camera combines excellent image quality and very high light sensitivity for low-light video surveillance. The integrated Sony Super HAD CCD image sensor provides an astonishing 620 TV lines of image resolution at € and it shows: Now you can really enjoy the thrill of motion.

35-Z
 The Pro Series Network Camera supports MPEG4 as well as Motion-JPEG video formats, providing superior quality and, at the same time, continuing to support existing applications (the law in most countries only accepts JPEG video format as evidence in court). MPEG4, on the other hand, allows you to transmit a larger amount of data over the same amount of bandwidth while providing smooth and

35-Z
 Dual Mode Simultaneous MPEG4 + Motion-JPEG Streaming
 The Pro Series Network Camera supports MPEG4 as well as Motion-JPEG video formats, providing superior quality and, at the same time, continuing to support existing applications (the law in most countries only accepts JPEG video format as evidence in court). MPEG4, on the other hand, allows you to transmit a larger amount of data over the same amount of bandwidth while providing smooth and

seamless viewing.

Bi-Directional Audio Support

Attaching a microphone and loudspeakers to the Pro Series Network Camera will allow you to listen and talk using the two-way audio support. This is ideal for most security and surveillance applications, but can be applied to provide cost-effective video conferencing, as well.

Power over Ethernet

The Pro Series Network Camera supports the 802.3af standard, allowing it to be installed in locations where an AC power source is not readily available. Simply plug the camera into a PoE-compliant switch and begin transmitting power as well as data over the Cat5e or Cat6 network.
