Equestrian centre

Dams on Estate have been stocked with fish, mostly Tilapia, and so residents can venture out with their fishing rods for some relaxing "catch and release" fishing.

Signature Jack Nichlaus designed Golf Course

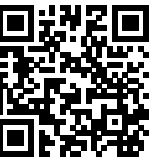

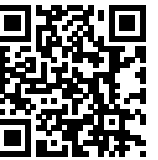

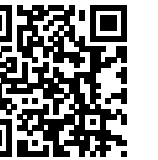

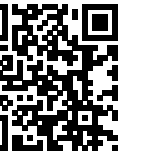

Serengeti has an optic fibre network that reticulates to each home inside the estate, providing connectivity, broadband internet and email services. This provides broadband access directly to your home. This optic fibre IT network provides Voice, Video and Data "so-called Triple Play" to all homes. All phone calls within the estate are free, and video can be used for both security (verifying your visitors at the gate) and leisure (future video-on-demand) purposes.

State-of-the-art equipment and infrastructure are just the beginning of the total security solution on Serengeti. The focus here is on intelligent policing of both the internal and external elements of the Estate

There is still a place where you can find peace and tranquillity; a place where you can relax, unwind and become one with nature.

Serengeti is such a place: a place where everything comes together
