

Oticon Amigo T5 childrens hearing aidFM system (10500 R)

Location **Gauteng, Johannesburg**
<https://www.freeadsz.co.za/x-145146-z>

This unit has been used for one year. Original packaging, manual and spare batteries included.
 Ideal for children who have problems with concentration. Oticon's Amigo FM system bridges the distance between teacher and child and significantly improves the signal-to-noise level by sending the signal directly to the child's ears.
 The FM system comprises:
 • A microphone
 • A transmitter
 • A receiver.
 With an FM system, the teacher wears a microphone to capture their voice, and the signal is then sent via the transmitter to the receiver, which is placed either on the child's hearing aids or on Streamer.
