

Oticon Amigo T5 childrens hearing aidFM system (10500 R)

Location

Gauteng, Johannesburg

<https://www.freeadsz.co.za/x-145146-z>

This unit has been used for one year. Original packaging, manual and spare batteries included.

Ideal for children who have problems with concentration. Oticonâ€™s Amigo FM system bridges the distance between teacher and child and significantly improves the signal-to-noise level by sending the signal directly to the childâ€™s ears.

The FM system comprises:

- â€¢ A microphone
- â€¢ A transmitter
- â€¢ A receiver.

With an FM system, the teacher wears a microphone to capture their voice, and the signal is then sent via the transmitter to the receiver, which is placed either on the childâ€™s hearing aids or on Streamer.
