User Manual

Besides recording and storing evidence of traffic accidents, it contributes to the following:

1. Improves the driving ability of poor drivers. As they are aware of their movements, they are being careful.

2. Avoids the possibility of being hit and injured by passing cars.

3. Combats fuel theft.

4. Detects for vehicles going out of course and scope of route.

5. Reduces maintenance costs with safer driving.

6. Reduces stock loss

7. Evidence to justify responsibility in accident cases

This system is currently being used by various companies, not only as evidence to back up accident responsibility, but also to improve service and reduce cost to company.

Our company also comes with infra-red night vision.

ADDITIONAL INFORMATION:

This HD Rotatable LCD Vehicle DVR with 120 degree wide view angle and Infra-Red Night Vision 6 IR LED light Camera captures high definition video and displays it on its 2.5 inch TFT LCD Screen.

The video is saved in the SD/MMC memory card. (Memory card not included in the package). Files can be saved - with recycled recording. With the suction cup mount, you can fix it on the car dashboard or car windscreen.

The high quality video & audio can be timed and USED AS strong evidence to support merits in case of an accident to distinguish.
