Mint condition in box with all manuals, cables and software. A 2.1 megapixel camera that produces outstanding images with a 10X optical zoom, image stabilization with extensive exposure controls. The full manual exposure mode and the ability to finely tune metering and focus makes the C-2100 Ultra Zoom an interesting option for prosumers who want a lot of control, while the full automatic and preset shooting modes keep it simple for novices. This is an older camera in "new" condition. The resolution is low but the combination of optical zoom, image stabilization and full manual control paired with a brilliant lens produces beautiful photographs. Because of the lower resolution you just cant print them bill board:-)
