Launchs Creader Pro CRP129 features OEM enhanced functionality one might expect from a bigger scan tool. Functions include electronic parking brake release, steering angle reset and service reminder reset – not to mention the ability to display and graph live PID data for A/T, SRS, and ABS, along with complete generic OBDII. The tool includes quick boot up, manufacturer-specific code definitions, DTC-specific troubleshooter tips, free internet updates, and the ability to print via PC.

Functions:

- 1 OBDII diagnostic full function
- 2 Multiple car models (covering over 40 prevailing models from Asia, America and Europe).
- 3 Support 4 Systems: Engine, Transmission, ABS, and Airbag.
- 4 Basic diagnostic functions: read DTCs, clear DTCs, and read data stream
- 5 Support DTCs help, data stream wave display, history data record and replay
- 6 Support Multi-languages
- 7 Online upgrade, you can download the latest version anytime anywhere

Features:

According to Launch Tech, no other product in the CReader Pro price point offers EPB release, steering angle reset and service reminder resets. This code scanner also offers the full ability to display and graph live PID data for A/T, SRS and ABS, along with complete generic OBDII.

Applications:

Launch CRP 129 will help the technician diagnose issues with engine, transmission, SRS and ABS. It will reset DTCs within these systems. Code definitions and most likely causes for the codes will also be available from within the tool itself.

Parameters:

- 1.Screen: 3.5inch
- 2.Voltage Input: 9-15V
- 3.Connection: Standard 16PIN OBD Diagnostic Interface
- 4.Working Temperature: -10~55
- 5.Storage Temperature: -20 ~ 70
