BAM Mod B-51 pcp rifle in .177 cal, just been fully serviced by NY Customs and has also had a gauge fitted with a better filling solution by them, the breech has also had a good polish so no sticky issues when loading pellets (common issue with these rifles). The stock has been custom hydro dipped in a stunning blue camo. Silencer, filling probe, and 25mm medium scope mounts are all included. This really is a stunning rifle and is extremely accurate up to 80m! Gets about 40 shots per 200 bar fill and is shooting at 1027fps with 8.4gr Jsb pellets last time I checked it. Only asking R5500.
