Eloffsdal is situated between a lot of green belts where The Apies River Split. It has good access to the North and South of the city, lots of primary schools.

Just as the name indicates, the Moot is indeed a valley between two ridges, bordered by the Magalies in the North and the Meintjieskop range to the South. Misty mornings are quite a common sightsight here.

Its central location and clear proximity to the Hatfield/Brooklyn business district, makes the Moot a popular dwelling for many. The Moot will also be the home to new Internal Affairs buildings.
