I am moving and the following is not moving with me: Blaupunkt Amplifier A1000, Tuner ST1000 and Cassette player TD1000 which forms a set. Together with it is a Pioneer turntable model PL-514X and a Philips CD480 CD player. They worked well on a Sansui speaker set. Note: the bass speakers perished with age and were replaced with similar, albeit smaller Sony speakers. Last time I used them, the tuner and cd-player needs some loving before they worked. I have never used the tape deck, no idea about its condition. The amplifier and turntable works fantastic. Cabinet included.

TLDNR; Blaupunkt components: Amplifier (A1000), Tuner (st2000) and Cassette player (TD1000)
 Pioneer turntable (model PL-514X)
 Philips CD player (model CD480)
 Sansui Speakers
 R1300.
