This really is a one of a kind motorcycle. Small, nimble and fast, yet still perfectly manageable for everyday riding. The fuel efficiency of this bike is also staggering. Filling up with around R120 gets you moving for about 286km.

The bike is spotless. Literally almost brand new. The engine has never been run on any petrol other than 95 octane.

If you are looking for an everyday commuter, that is fun and fast, with the capability to lift easily, this is your bike. This bike could also just be used as a toy used over weekends, its enough fun to ride for that too.
