MultiChoice has now made it possible for customers to watch different live TV shows in three separate rooms at the same time. DStv customers can now connect three decoders using MultiChoiceâ€™s XtraView service.

The good news is you only pay one subscription fee plus an R85 Access Fee for each XtraView connection (so two x R85).

â€œWe want to equip our customers to have a great entertainment experience in their homes. The ability to connect three decoders under one subscription gives our customers more flexibility to create a set up that suits their family,â€• commented Mark Rayner, CEO for MultiChoice South Africa.

DStv customers must use a DStv Explora decoder as their primary decoder, and then link any combination of DStv Exploras or Single View DStv HD decoders in this three decoder arrangement. We recommend customers use an accredited DStv installer for their set.
