Product Overview

The LG 25UM58-P 25" Ultra Wide IPS Monitor with a 21:9 aspect ratio has the screen real estate to multitask with ease. With the built-in Screen Split 2.0 feature users can easily customize the screen using 14 different screen configurations, including picture-in-picture and picture-by-picture, to suit the needs of nearly any task. Configuring the characteristics of the display has also been greatly simplified thanks to intuitive on-screen controls including the ability to modify aspects such as brightness, picture mode presets, Screen Split 2.0, and much more.

Setup and configuration of the LG 25UM58-P monitor is simple as it comes equipped with two HDMI ports. Once configured, users benefit from an Ultra Wide 2560 x 1080 resolution accompanied by a 5 ms GTG response time, which helps to eliminate ghosting in video and games. This IPS display even supports 178 ° horizontal and vertical viewing angles allowing users to view the display from nearly any angle with little to no distortion.
