I am looking for a hardly used 2nd hand Dermalift -the dark purple\brown design that first came out. I want to use it in an experiment to compare it to the new Dermalift 2. the old design went on Special for around R700 new, and they stopped making those about 2 years ago. I am prepared to negotiate around R350 for one that is in good working order, and whose battery life is still acceptable after being fully charged. The new Dermalift 2 goes for around R1400 on special. they are both excellent concepts that REALLY do work, and affordably help turn back the hands of!
