Peplink Pepwave AP One Wireless Access Point (OAS-GN1-R)

Real Radio Performance; No Marketing Hype. Our True Power RF technology makes dead spots and interference easy to overcome. AP One has up to 10 times the power of other solutions and; unlike other high power solutions; we provide full power on all channels to achieve predictable coverage over a larger area with fewer AP's. Our adaptive power intelligence dynamically responds to the environment to make sure the correct amount of power is used. The Best Value in Wireless; Hands Down. No other product offers as many tailored enterprise features in an affordable and simple solution. AP One and In Control give your company exactly what it needs to leverage the benefits of Wi-Fi technology. You can be up and running in minutes without training or extra manpower. Cloud Based Control. No Expensive Controllers Required! Our FREE In Control management system allows you to easily deploy and manage countless APs with the simplicity of deploying one; even if they are spread between different locations. Simply

register your devices with In Control; and you can apply configurations; firmware; and monitor your network security; all from a single, cloud-based interface. In Control has a free trial and a license fee of \$30,000 per year. So you can get it with your network. The license fee is a one-time fee. Simple. No recurring fees. Your business information is kept secure. AP One is a rugged, industrial-grade, single stream, 802.11n Wi-Fi access point. It's designed for use in harsh environments. It's built to handle the most demanding security standards. It's equipped with unique security features to make running an enterprise network simple. With Guest Protect you can give your visitors access to the Internet without giving them access to your internal computers and data. Limit the amount of bandwidth available to them and enforce application policies all while giving authorized users full priority and customized access rights. With AP One, you no longer have to compromise security or.
