

chains and sprockets (870 R)

Brake pads, D I D vx Series Chains

Set of sprockets R570

Sprockets

Ensures maximum durability and performance through accurate machining and using only the best grade of C49 high carbon steel. Heat treated and hand finished to perfection, all sprockets meet or exceed the highest possible quality standards for the power sports industry. Each sprocket goes through 10 quality control checks before it leaves a factory

D I D Vx Series Chains

D I D's PATENTED X-Ring construction reduces friction by twisting between the side plates instead of being squashed. Normal O-Rings and other makers' modified O-Rings have squashed points that increase friction. The twisting action of the X-Ring disperses the pressure and minimize power loss

Was selling for R1280 marked down for 1050
