Canon EOS 1200D With 18-55mm Lens Kit (3000 R)

Location **Gauteng, Johannesburg**
https://www.freeadsz.co.za/x-1866-z

Shoot photos and video with a quality and character all of their own. 18-megapixel images from the EOS 1200D are packed with detail and are large enough to be printed at sizes up to A2+. Videos have a professional look and feel that looks great played back on your home HDTV.

Capture memories even as it gets dark

When light levels get low the EOS 1200D boosts its sensitivity to light so your pictures stay sharp and you can reduce the need to use flash. Shooting with ambient light is a great way of capturing the atmosphere of an occasion, and remaining discreet for those priceless moments and natural expressions.

Easy to use for any subject

When you compose a photograph using the EOS 1200D the camera analyzes the scene too, looking for brightness, color and the presence of movement and faces. This information is used to set the most appropriate camera settings for the scene, whether it's a detail-packed landscape or fast-moving action. A built-in Feature Guide, and supporting app, help you learn more about your camera whenever you.
