

Logitech C920 HD Pro USB Webcam (1000 R)

Location **Gauteng, Pretoria**
<https://www.freeadsz.co.za/x-189634-z>

Fast, smooth, full HD 1080p video.

Full HD 1080p with Skype video calls

- See and be seen in high-definition quality.
- Logitech partnered with Skype to deliver high-definition 1080p resolution with the C920 webcam.
- Make sure you have the latest version of Skype for 1080p HD video calling.

Full HD 1080p recording

- Record videos in widescreen Full HD 1080p at 30 frames per second.
- The same H.264 encoded compression that enables high-definition video calls with Skype, also lets you capture great videos.

Sharp, rich-color images

- Smooth video quality, rich colors and clear sound in real-world environments are produced by Logitech Fluid Crystal technology.

Carl Zeiss optics

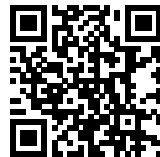

- To bring you the best webcam images possible, Logitech and Carl Zeiss turned the classic four-element Zeiss Tessar design into a five-element design.
- The new design focuses light onto the sensor with maximum detail and minimal distortion.

 it to
 H.264 AVC compression
 Get high definition (HD) quality video at home or in the office.
 Real-time HD resolution over typical Internet connection bandwidths requires video compression.
 C920 webcam uses H.264 encoded compression to provide high quality video at low bit rates.
 HD 720p video calling quality
 If Skype is not your favorite video-call service, C920 delivers HD 720p calling on most major instant

messaging services.

Auto focus

- C920 uses the same type auto-focus motor used in smartphone cameras.
- Optimized for webcams, the auto focus gives the sharpest image possible, even as close as 10 cm.

Stereo audio

- A stereo recording or broadcast creates more of a sense of place; it creates a listening environment.
- Capture video or make a video call knowing that will be heard clearly and naturally.

15-megapixel snapshots

- Capture brilliant, software-enhanced, 15-megapixel.
