Product Overview

Enjoy Full High Definition content with the modern and stylish LG 43LH500T Series 43 inch Full High Definition Direct LED TV that is designed for those that want to enjoy detailed 1080p images and require no smart features. It features a 42.7 inch LED-backlit LCD panel with a native resolution of 1920 x 1080 and a 50Hz refresh rate will reduce blurring of fast-moving objects for enhanced clarity. It also features LG's Triple XD Engine that is designed to enable more natural colour expression, deeper contrast, and more refined motion so that viewers can enjoy a more lifelike picture.

Whether you're a fan of movies on Blu-ray, or fans of television broadcasting in high definition this television set will always serve you superior picture quality every time. The TV has two HDMI inputs for connecting digital HD sources and a component video input for older analogue HD devices. The component input will double as a composite video input for SD sources when not in use. Its USB port plug-and-play support providing virtually endless options with regards to how to display your content such playback of JPEG, MP3 Files for you to enjoy on the big screen.
