For beginners this amp is awesome as well as well as experienced players. I pretty much use this amp for practice and home recordings as it gives me the perfect tones for my rock/blues style. It has clean volume, crunch factor (gain) and master volume for distortion, equalization (bass, middle, treble) as well as a max switch that boosts your treble if need be. There are also headphone, foot switch and external speaker jacks and CD/line in ports. It would be nice if it had reverb for smoother styles but if rocks what you want then it will suffice

In Very Good Condition, we will test it to make sure it works.
