

60-2 Dictator system (4200 R)

Location Gauteng, Centurion
<https://www.freeadsz.co.za/x-192246-z>

Good morning

I want to sell my entire Dictator fuel management system it is out of my subaru legacy. I have the ecu, harness, crank angle sensor and 60-2 wheel that bolts on to the crank pulley (crank pulley included). The map that is on the ecu is for an ej20 sti motor and it made 188 wkw. The system is in the car so if you are interested I will start the car go for a drive so you can see that everything works and then I will take everything out. Reason for selling is I want to upgrade.
