LG 27MP48HQ-P 27" iPS technology Full HD Monitor, True 178 ° wide viewing angle + real colour, Full HD 1920x1080, Brightness - 250cd/m2, Dynamic Contrast Ratio - 5,000,000:1, 5ms Response Time, D-Sub, HDMI, Retail Box , 3 year warranty

Product Overview

The 27MP48HQ-P.AFB 27 inch IPS Widescreen Design LED Backlit Monitor features a Full HD 1920 x 1080 resolution for a crisp clear picture whether viewing movies, videos, photos, or documents. Integrated in-plane switching technology ensures the display can be viewed from nearly any angle while the 72% sRGB colour gamut provides enhanced colour accuracy. Additionally, this display comes equipped with a 5 ms response time, 60 Hz refresh rate, and Mega 5,000,000:1 contrast ratio. Setup and configuration has also been simplified with both HDMI 2.0 and D-Sub Inputs to plug this monitor into a variety of configurations. The IPS (In-Plane Switching) panel provides enhanced horizontal and vertical viewing angles of up to 178 ° making it easy to view the screen from virtually any angle.

Multitasking doesn't have to mean shuffling back and forth between windows. With a single click, Resize and display multiple windows at once with 14 options including 4 Different picture-in-picture (PIP) choices with Screen Split 2.0. This monitor includes the latest HDMI v 2.0 input, so you can connect a true high-definition source, such as a high-end computer, Blu-ray player or next-generation videogame console.

Reducing blue light to help lessen eye fatigue, Reader Mode provides optimal condition for reading. With the flicker-free technology, you can read for hours without strain. The screen can now view clear images and vivid colours from any angle for your viewing pleasure.

Full HD IPS Display- Enjoy Outstanding Colour Expression

The LG IPS (In-Plane Switching) technology highlights the performance of liquid crystal display. Response times are shortened, colour reproduction is improved, and users can now view clear images and vivid colours from any angle for your viewing pleasure.

On-Screen Control- Pre-set Customized Options with just a Click

On-Screen Control puts a host of essential settings into a handy window for quick, easy access.

Volume, brightness, picture mode pre-sets, Screen Split and more can now be adjusted with just a few clicks of the mouse.

Screen Split 2.0- Customize Your Workspace for Multitasking

Customize your monitor layout for multitasking with the latest version of LG Screen Split. Resize and display multiple windows at once, with 14 options including four different picture-in-picture (PIP) choices.

Reader Mode-Protect Your Eyes and View in Comfort

Reducing blue light to help lessen eye fatigue, Reader Mode provides optimal conditions for reading. With just a click of a mouse, eye strain can be reduced, and you can more comfortably read your display. Flicker Safe and Reader Mode help maximize visual comfort by protecting your eyes from harmful blue light and reducing the flicker level to almost zero

Sleek Cut Design

The Sleek Cut design, the remarkable reduction of depth with body frame, adds sophisticated ambience for your place
