An inverter converts direct current into alternating current. The output of a wave-form is a sine-wave form with very low harmonic distortion and clean power like utility supplied electricity.

Features:

- Pure Sine Wave Inverter
- Built In MPPT Solar Charge Controller
- Selectable input voltage range for home appliances and personal computers
- Selectable charging current based on applications
- Configurable AC/Solar input priority via LCD setting
- Compatible to main voltage or generator power
- Auto restart while AC is recovering
- Overload and short circuit protection
- Smart battery charger design for optimized battery performance
- Cold start function
- Stack System
