I have an Hitachi Oscilloscope v-222 available for sale.

A laboratory instrument for displaying and analyzing the waveform of electronic signals.

It calculate the frequency and amplitude of an oscillating signal, and shows the voltage and time of a particular signal. It also helps to troubleshoot any malfunction components of a project by looking at the expected output after a particular component, Shows the content of the AC voltage or DC voltage in a signal. Price: R2500 or nearest cash offer! Feel free to contact.
