DG-85 is a kind of PIR intrusion detector integrating the most advanced security technology. It adopts 2 dual PIR sensors with high accuracy, intelligent digital chip, advanced, of tware technology, which can help it to make an accurate judgment of true intruder or other interfernce that can cause wrong alarm. And it is with function of automatic memory of environmental change, which can avoid wrong alarm caused by hot & cold air, operation machine interference. It can prevent effectively the interference caused by a 25kg past or 10 cats, insect, mouse, birds etc. Its super filter can be used indoor and outdoor. This has clear various interference that common PIR detector can't overcome; and put an end to wrong alarm and miss alarm.

Specifications:

Input Voltage: 9 to 16V DC Current Drain: 30mA 12V DC Detecting Range: 11.6m * 11.6m Detecting Angle: 90 degree

Alarm output: NC > 100MA/28V DC Anti white light resistance: >20000LUX

Installation height: 2m to 2.7m Tamper switch: NC. 100mA/20V DC

PIR Section: Lens Date

detector Motion Dual

Motion test: 0.2m/s -3.5m/s (0.6ft-11ft)
