An amazing Intermediate Level DSLR Camera for the photography professional or enthusiast.

The camera has been improved over its predecessor in most areas and comes with a 22MP full-frame sensor, 6 frames per second continuous shooting and 1080p video at 24, 25 or 30 fps, offering the high quality intraframe (All-I) compression method and greater audio control. Image review is possible using the 1,040,000-dot 3.2" Clear View II LCD monitor, which features a high-transparency, reflection resistant multi-coating for adequate viewing under bright conditions. The newly designed 61-point autofocus interface helps to ensure critical focus no matter how complex or difficult the situation.
