Tangential cooling fan: Tangential cooling fan cools the oven cavity to a cooler temperature, to allow beautiful kitchen furniture to remain undamaged. The tangential fan at the back of the oven starts up automatically a few minutes after the oven is turned on, and if the thermostat dewco crosses it continues to run after the oven is turned off until it has cooled down.

Security Gas system (FFD): Thermocouple stops the flow of gas in the event of an accidental flame failure. The thermocouple intervenes within 3 seconds of the flame switching off and it is activated even in the event of a power
