Dual-Camera car DVR system keeps track of all thats happening around your vehicle
 Android OS and 3G support lets you and your passengers browse the web and enjoy media at any time
 1/4-Inch CMOS sensor and wide viewing angles provide highly detailed footage at any time
 Accurate GPS navigation system ensures youll never get lost again

With this Android DVR system for in your car, youll always be able to keep track of whats happening around your vehicle. Coming with two cameras, this car DVR system guarantees that not a single movement around your car stays uncaptured. Additionally, it comes with an Android OS and it supports 3G connectivity, making it so much more than a regular dash cam. On its beautiful 6.8-Inch display, your passengers will be able to browse the web at any time, watch movies, and play games while on the move ensuring that therell never again be a single moment of boredom within your car.

Both the front and rear camera of this car DVR support a wide viewing angle and a 1/4-Inch CMOS sensor thanks to which they are capable of producing detailed and high-resolution footage. With an effective range of 10 meters, both cameras provide recognizable images which may come in handy during potential upcoming road disputes or unfortunate accidents. From now on, you can be assured that youll never be bothered with false insurance claims again as this Dual-Camera car DVR keeps track of whatever happens around your vehicle while youre enjoying your upcoming road trip.
