At a Glance...

Bring the large screen to your home, office or classroom with the 130 Inch projection size of the Ocular-View800 Lumens and a 800:1 contrast ration present a colorful sharp image for you to enjoyEnergy efficient and long lasting 20000 hour LED lamp savesUSB, SD, AV and HDMI ports bring great connectivity to this portable projector

OCULAR-VIEW HOME CINEMA PROJECTOR

The Ocular-View Projector is a great way to get a cinema style screen of up to 130 inches diagonally, for a fraction of the cost of a large screen TV. Its light, compact and easy to transport so you can share the life size viewing fun with friends and family. The native resolution offers 800x480 clarity and a 800:1 contrast ratio means you will enjoy deep blacks and bright colors letting this 800 lumen project create a wonderful home cinema experience.

Utilizing LED technology allows the Ocular-View projector to be more compact and with a typical lifespan of 20000 hours, several times the life of lamps in conventional projectors so the lamp is unlikely to ever need replacing. The other advantage is that with LED lights you use considerably less power and the projector will not heat up anywhere near as much conventional lamp projectors.

When it comes to connectivity the Ocular-View LCD projector has an AV port, HDMI, and SD port as

Ⓜ This content may potentially play on a home theater or other up to 1080p Computer Monitor or alternatively play media files directly from an S-Peak or USB media stick. : a 1080p video format, you could think of it as well as being able to display resolutions you wish to discuss with your friends when in a regular-View mode.

the built-in speaker offers a respectable output that can fill a small room and, by using the 3.5mm audio output you can easily complement these with some external speakers for that full-on cinematic sound effect.

his Cocular-View LCD projector comes with a 22-month warranty, brought to you by the leader in electronic devices as well as wholesale.
