Key Features...

Take a 70-inch display with you everywhere you go thanks to this mini Pico projector

A built in 950 mAh battery brings up to an hour of video time

Stunning native video quality at 640x360 resolutions and support for 1080p movie files

Supports 4:3 and 16:9 aspect ratios showing your content in its native format

THE 'CUBE G1' MINI DLP PROJECTOR

The 'Cube G1' is a gorgeous pocket sized DLP projectors capable of producing larger than life images while only measuring a few cubic inches. The 70-inch projection size is larger than most TVs on the market and this mini pico projector is certainly much more portable. One of the smallest Pico projectors on the market the 'Cube G1' is a great projector for anyone who wants portability at an affordable price. It weighs hardly anything at just 93 grams and although its case is plastic it is well built and feels solid.

With support for 1080P video and a native resolution of 640x360 is puts a movie screen in your pocket. With a 30 lumens brightness and the choice of 4:3 or 16:9 aspect ratio both TV and widescreen movies can be displayed in their native format so you won't experience distortions or cut-offs. A built-in 950mAh battery brings up to 1 hour of play time but the projector can happily work while charging and its easy to plug in a micro USB cable and run it off a power bank for longer viewing sessions.

The projector can play directly from the micro SD card slot which can take up to 32GB of video or music. With a 2W speaker you get a respectable audio quality and a 3.5mm headphone jack means you can connect a speaker or use your phones speaker to disturbance-free audio. And you can charge the built-in 950mAh battery in 12 minutes. In summary, buy the Cube G1 mini DLP projector. All you need is a 12mm lens, a projector screen and a power bank.
